You can get a taste of what to expect in the trailer: It looks good, doesn't it? As the name suggests, FINAL FANTASY CRYSTAL CHRONICLES Remastered Edition is a new and improved version of the original FINAL FANTASY CRYSTAL CHRONICLES, which launched at Nintendo GameCube way back in 2003. The RPG action is located on a land threatened by a deeply poisonous gas called Miasma. You play as a young hero who, with a Moogle companion or along with up to three other friends, travels around the world in search of rare and precious liquid myrrh. With this valuable resource, they will be able to clean and a crystal that protects the earth and its people. The game's Remastered Edition comes with improved features and even completely new content. The graphics have been upgraded, bringing the world and residents of the game to modern systems in glorious HD. Audio has improved immensely, with new voiceovers bringing these unforgettable characters to life like never before. The game also features online multiplayer for the first time - this is exciting because FINAL FANTASY CRYSTAL CHRONICLES Remastered Edition is an amazing collaborative experience. The original version of the game required four GameBoy Advances and connection cables to play with a full team, which was awesome, but also required people to have all this equipment at hand. Now, you will be able to play online for a much more convenient and seamless session. Speaking of convenience, FINAL FANTASY CRYSTAL CHRONICLES Remastered Edition also features crossplay! This means that you will be able to play online with anyone who owns the game, regardless of their platform. Whether you're playing with a team online, or as a solo adventurer, you'll be able to explore dangerous dungeons and take on challenging bosses, some of whom are brand new and have been added for this version of the game. There is also a completely new feature Mimic. It allows your character to take the form of different people you meet on your journey so you can mix your style! By collecting stamps, visiting Moogle Houses or completing difficult dungeons, you will win special crystals, which you can use to change your appearance. It's a great way to mix your style!
